## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE one MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

1. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows: **Parent peptide hormones consisting of**

- A) ACTH and corticotropin releasing factors
- B) angiotensin
- C) calcitonin
- D) glucagon and glucogone-like peptide
- D) IGF-1, IGF-2 and somatomedin
- E) enterogastrin
- F) somatostatin
- G) somatotropin
- H) parathyroid hormone
- I) thrombopoietin, erythropoietin
- J) hypothalamic releasing factors
- K) prolactin
- L) thyroid stimulating hormone

Art Unit: 1653

- M) endorphins
- N) enkephalins
- O) vasopressin
- P) oxytocin
- Q) opioids
- R) superoxide dismutase
- S) interferone
- T) asparaginase
- U) arginase
- V) arginine deaminase
- W) adenosine deaminase
- X) ribonuclease

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations

Art Unit: 1653

of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. The claims are deemed to correspond to the species listed above in the following manner: claims 1-19 are readable on species A) to X)

The following claim(s) are generic: 1-19

3. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: The different so called, parent peptide hormones are not members of a recognized class of compounds, in fact, they represent a plurality of classes of compounds which may be identified as follows:

- a) Peptides of varying structures, properties (physical/chemical), reactivities and functions
- b) Enzymes of varying structures, properties (physical/chemical), reactivities and functions
- c) Non peptides such as opioids

Applicant is advised that the reply to this requirement to be complete must include an election of the invention-species along with the election of an ultimate specie to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1653

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to F.T.Moezie whose telephone number is (703) 305-4508 or Mr. LOW (SPE) at 308-2923.
